

SAFETY DATA SHEET

PRODUCT AND COMPANY IDENTIFICATION:

Crest GLASS CLEANER

For Commercial & Institutional Use Only Environmental Choice Licence No:3717144

CREST COMMERCIAL CLEANING LTD

PO Box 740, Dunedin, New Zealand.

Phone: (64-3) 477-1126

Fax: (64-3) 477-1194

E-mail: service@crestclean.co.nz

Internet: www.crestclean.co.nz

EMERGENCY CONTACT: Phone 0800-273-780

8.0am to 5.0pm Mon to Fri

After Hours: National Poisons & Hazardous Chemical Information Centre: 0800-764-766 (0800-POISON)

HAZARD IDENTIFICATION:

By the Hazardous Substances and New Organisms Act 1996 and Classification Regulations 2001, the product is approved as:

Cleaning Products Subsidiary Hazard Group Standard HSR002530

Signal Word: Warning

HSNO Hazard Classification: 6.3B Causes mild skin irritation.
6.4A Causes eye irritation.

Precautionary Statements: Read label before use.
Wash hands thoroughly after handling.

COMPOSITION & INFORMATION ON INGREDIENTS compliant with EU Regulation No 907/2006:

Solvents	2 -10 %
Nonionic surfactant	< 2 %
Perfume	< 2%
Triethanolamine	< 2%
Colouring	Trace
Water	to 100 %

FIRST AID MEASURES:

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

IF ON SKIN OR CLOTHING: If skin irritation occurs: Get medical advice.

MEDICAL ASSISTANCE: If discomfort persists call your nearest Medical Centre or the NZ National Poisons Centre 0800-764-766 for advice.
Have this label or Safety Data Sheet on hand.

FIRE FIGHTING MEASURES:

This product is neither flammable nor combustible.

Drums subject to the heat of a prolonged fire may explode or erupt scattering contents with possibility of enhancing combustion. Where possible remove drums and containers from the path of a fire, or cool with water spray.

Firefighters may use water spray, jet, fog, foam, CO2, or dry chemical powder to extinguish a fire in the vicinity.

ACCIDENTAL RELEASE MEASURES:

Spills on floors will produce a slippery surface. Signage preventing foot traffic should be erected where appropriate.

Minor spills (less than 100 litres) should be contained from drainage, diluted with water, neutralised where appropriate, and removed with mops, or absorbed with Mineral Sponge, rags, paper, sand, or soil. It may be possible to drain small spills to town wastewater services where permitted by local authorities.

Large spills (drums and IBC's) should be contained from local drainage with any suitable bund or barrier. Clean up with absorbant material such as Mineral Sponge, paper, rags, sand or soil. Where a liquid suction cleaning machine is available, it should be used only after neutralising the spill product.

HANDLING AND STORAGE:

HANDLING: Read label before use. Wash hands thoroughly after handling.

STORAGE: Store in original container or suitable dispenser. When not in use, store in a cool, dry, dark, ideally lockable location. Direct sunlight may result in colour fading.

EXPOSURE CONTROLS & PERSONAL PROTECTION:

Exposure controls: No data is available
Eye protection: Safety glasses.
Protective clothing: Chemically impregnable gloves, protective work clothes (a coat, apron or overalls).
Respiratory protection: Not required for the regular use of this product.
Ventilation: Where spraying or vaporising is being carried out, ensure there is adequate ventilation provided in the work space.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance	Clear green liquid
Odour	Characteristic solvent
pH	10.5
Flash Point	> 93° C
Ignition Point	Not applicable
Specific Gravity	0.997
Refractive Index	0.5 %Bx
Viscosity	Not applicable
Relative Foam	Low
Solubility in water	Completely in all proportions

STABILITY AND REACTIVITY:

Is considered stable under normal storage conditions.
Avoid contamination with oxidising substances.
Hazardous polymerisation will not occur.
Combustion of this product will release oxides of carbon and nitrogen.

TOXICOLOGICAL INFORMATION:

No data is available

ECOLOGICAL INFORMATION:

No data is available
Surfactants and solvents used are classed Readily Biodegradable according to the European Union Detergents Regulations #907/2006.

DISPOSAL CONSIDERATIONS:

Minor spilled liquids (after neutralisation) may be disposed of through town wastewater systems where these are authorised for industrial use.
Major spills, which have been collected by machine or on absorbants, should be disposed of by waste disposal experts in accordance with local regulations.
Wash empty containers before recycling.

TRANSPORT INFORMATION:

NZ Land Transport Rule: Dangerous Goods Rule 2005

Classified as not dangerous for Land Transport in New Zealand

NZ REGULATORY INFORMATION:

Cleaning Products Subsidiary Hazards Group Standard:
Hazardous Substances Controls Regulations 2001:
Wear gloves and eye safety glasses handling
Use buckets, or similar, to dilute before use
Label or mark containers used to hold

HSR No: 002530.

Use good well defined measures to make dilutions
Keep unused product in secure containers to prevent mistaken use

OTHER INFORMATION:

Formulation Reference: K2-124

SDS Preparation Date: 9/03/2017

SDS Expiry Date: 9/03/2022
