

# Property Care Services

## **Crest PropertyCare provides reliable property care services for businesses, organisations and schools.**

Commercial buildings and business premises need regular exterior maintenance to improve their presentation. Whether it's spraying for moss or sweeping up leaves and windblown rubbish, our property care teams take pride in their work and can help maintain your premises and grounds to a high standard.

We handle a variety of maintenance tasks... our personnel are trained in the safe operation of their equipment and to carry out their tasks while minimising any risks to the public.

Let us take care of the outside areas of your premises – you'll be impressed at the difference we can make!

### **We can take care of these jobs:**

- ✓ Any exterior cleaning
- ✓ Lawns, grounds and gardening
- ✓ Spraying moss, mould and lichen
- ✓ Pure Water Window Cleaning
- ✓ Carpark cleaning and sweeping
- ✓ Water blasting outdoor areas
- ✓ Building washing
- ✓ General maintenance and repair jobs

# With Crest PropertyCare, we've got you covered!

- 1 Lawns, grounds and gardening
- 2 Pure Water Window Cleaning
- 3 Water blasting and building washing
- 4 Removal of moss, mould and lichen
- 5 Carpark cleaning and sweeping

## Appraisal and quotation process

We provide a consultative quotation – all property care tasks are defined and ordered into a schedule of duties, with regular, seasonal and periodic tasks. The schedule of duties forms the basis for an annual service on a contract arrangement.

Contact us today, and we will make a time to visit your building to discuss how Crest PropertyCare can help with your maintenance and presentation.

We deploy 'Safe Systems of Work' for each service that our personnel carry out.

All personnel are security vetted and background checked.

Our Property Care teams are trained in the safe operation of their equipment and the processes they follow.
