

# Commercial Cleaning Services

## Across New Zealand our professionally trained cleaning teams are ready to shine.

CrestClean provides consistent and reliable cleaning services to more than 5,000 customers throughout the country.

Our cleaning teams are owner-operators – they have a vested interest in providing high standards of cleaning. They receive professional training and regular skills development to ensure they deliver a quality service.

Our Environmental Choice licence helps to improve the sustainability of our cleaning services and it allows our customers to verify sustainable procurement.

Call your local CrestClean Regional Manager today... we are ready and able to make a real difference to your workplace cleaning.

- ✔ Our Regional Managers provide a single point of contact

Cleaning Services  
Licence No 4517141

## Standardised Cleaning Systems

CrestClean's standardised cleaning systems create hygienic outcomes at every cleaning service.

Our cleaning teams use the latest equipment and are professionally trained to clean competently to the prescribed specifications.

Cleaning is conducted to high standards with strict hygiene protocols.

## HyperClean® Hydrogen Peroxide Cleaner

HyperClean® is a powerful cleaner that cleans and removes biofilm from hard surfaces.

Hydrogen Peroxide oxidises on contact with soiled surfaces, providing an aggressive cleaning action. It breaks down into water and oxygen, so it's safe for users and the environment.

## Sanitising Service for high-touch surfaces

Sanitising high-touch surfaces improves workplace hygiene. We use a 2-step process where surfaces are first cleaned to remove soil and biofilm build-up, and then sanitiser is applied.

The service is carried out at agreed frequencies i.e. daily, 3 x weekly, or weekly, in addition to our standard cleaning services.

Our Anti-Viral Sanitiser is officially rated against coronavirus.\*

### Formulation HWS-64 (LONZA)

\*Registered by the US Environmental Protection Agency (EPA) as a disinfectant qualified for use against COVID-19.

Our cleaning systems meet the recommended 'cleaning against coronavirus' protocols.

## Systemised Cleaning Processes

Our teams are trained to follow step-by-step 'safe systems of work' to perform cleaning tasks. These processes ensure that our customers receive consistent quality and enhanced levels of hygiene.

## Consumables and Hygiene Supplies

Through our partnership with AlSCO, we provide a large range of consumable products, hygiene services and rental equipment. Upgrading personal hygiene amenities sets the scene for creating a cleaner workplace.

## Our Specialist Services can make a real difference to the presentation of your premises.

CrestClean's cleaning services meet the strict environmental criteria as set by Environmental Choice NZ.

We deploy 'Safe Systems of Work' for each service that our personnel carry out.

Our personnel receive advanced training and regular skills development to ensure they deliver a quality service.
