

School Cleaning Services

CrestClean is proud to clean over 500 primary, intermediate and secondary schools throughout New Zealand.

‘Consistency’ is the word that sums up what schools need most from their cleaning provider. CrestClean understands school cleaning – we have a very successful track record of delivering professional cleaning services to Kiwi schools.

We have been a supporter and business partner of the NZ Principals’ Federation since 2008, and a Gold Business Partner since 2013.

Our Environmental Choice licence ensures our cleaning services are sustainable and safe for pupils and staff.

Our local cleaning teams are ready and able to make a real difference to your school cleaning.

CrestClean offers:

- ✓ A stable and secure workforce of owner-operators
- ✓ Detailed specifications for your school cleaning
- ✓ Programmed term cleans
- ✓ Scheduled quality audits
- ✓ Security vetted personnel in uniforms with photo IDs
- ✓ Our Regional Managers provide a single point of contact

Standardised Cleaning Systems

CrestClean's standardised cleaning systems create hygienic outcomes at every cleaning service.

Our cleaning teams use the latest equipment and are professionally trained to clean competently to the prescribed specifications.

Cleaning is conducted to high standards with strict hygiene protocols.

HyperClean® Hydrogen Peroxide Cleaner

HyperClean® is a powerful cleaner that cleans and removes biofilm from hard surfaces.

Hydrogen Peroxide oxidises on contact with soiled surfaces, providing an aggressive cleaning action. It breaks down into water and oxygen, so it's safe for users and the environment.

Sanitising Service for high-touch surfaces

Sanitising high-touch surfaces improves school hygiene. We use a 2-step process where surfaces are first cleaned to remove soil and biofilm build-up, and then sanitiser is applied.

The service is carried out at agreed frequencies i.e. daily, 3 x weekly, or weekly, in addition to our standard cleaning services.

Our Anti-Viral Sanitiser is officially rated against coronavirus.*

Formulation HWS-64 (LONZA)

*Registered by the US Environmental Protection Agency (EPA) as a disinfectant qualified for use against COVID-19.

Our cleaning systems meet the recommended 'cleaning against coronavirus' protocols.

Systemised Cleaning Processes

Our teams are trained to follow step-by-step 'safe systems of work' to perform cleaning tasks. These processes ensure that our customers receive consistent quality and enhanced levels of hygiene.

Consumables and Hygiene Supplies

Through our partnership with AlSCO, we provide a large range of consumable products, hygiene services and rental equipment. Upgrading personal hygiene amenities sets the scene for creating a cleaner school environment.

Our Specialist Services can make a real difference to the presentation of your school.

CrestClean's cleaning services meet the strict environmental criteria as set by Environmental Choice NZ.

We deploy 'Safe Systems of Work' for each service that our personnel carry out.

Our personnel receive advanced training and regular skills development to ensure they deliver a quality service.
